DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 7, 8 and 20, drawn to a composition and a method for treating disturbances or illnesses of an inner ear, using **a peptide** that functions as a vasopressin receptor antagonist.

Group II, claim(s) claims 9-13, drawn to a method for treating disturbances or illnesses of an inner ear using a non-peptide organic substance such as a **benzazepine derivative or an indole derivative** that functions as a vasopressin receptor antagonist.

Claims 1-6, 14-19 are drawn to both Group I and Group II claims.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The active substance(s) used in the claims do not share a common special technical feature, hence there is a lack of unity of invention due to the different structures. Furthermore, each invention is searched in a different class/subclass and

the mode of operation is different for each invention. Finally, the consideration of patentability is different in each case.

NOTE: Upon election of Group I or Group II invention, claims 1-6, and 14-19 will, additionally, be examined along with the elected invention to the extent that they are readable on the election invention.

Applicant is advised that the reply to this requirement to be complete **must include an election of the invention** to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to F.T. Moezie whose telephone number is (703) 4508 or Dr. LOW (SPE) at 308-02923.
